### **Objectives of the Practice**

The institution has, with a goal to provide proper guidance regarding competitive examinations, started the same to cater to the needs of students coming from vicinity. The objectives of the centre are:

1. To provide proper guidance and platform to students to face competitive examinations.
2. To create awareness among students about various competitive examinations.
3. To facilitate career opportunities in various State services.
4. To inculcate the values and preparations of competitive exams among students.
5. To create facilities including infrastructure, library, classrooms, study centre for competitive exams.
6. To increase the number of students in civil services.

### **The Context**

The founders of the institution established this college with the object to facilitate masses with higher education and career opportunities. However, the percentage of our students at civil services was not satisfactory due to awareness, proper guidance, facilities etc. The institution before few years resolved to guide, facilitate, and prepare our students for different civil services. It was observed that most of the students were not aware of competitive examinations though they have great potentials and calibre to face and crack the same. Therefore, the institution took initiative in establishing this centre to address the issue. The very object of starting the centre for competitive examinations, at the inception, was to inculcate self-confidence about competitive examinations by organizing lectures in this direction and to provide a platform to prepare students for these

examinations. The students appreciated this initiative and it proved very successful. The centre has now become identity of our institution.

### **The Practice**

Every year, at the commencement of the academic year, the notice of new batch of competitive examination centre is circulated among students. Students enrol their names for new batch. The time table of lectures and tests is prepared by the centre. Students, after daily schedule of the college, go to the centre and attend the lectures of all subjects organized by the centre. The college faculty work there as teachers and instructors of different subjects. The centre prepares weekly tests on the topics taught according to the structure of MPSC. One coordinator from the faculty is appointed and coordinators with other office staff are appointed to carry out the activities of the centre. Students are charged minimum fees to comply all activities of the centre. One batch of students gets all facilities including lectures, tests, library, and interview panels for two or three years. The students that crack the pre exams of MPSC are appointed in the batch of main exam batch. The preparations for main examinations are prepared with specializations of the students. The students that crack the main examination and selected for interview of MPSC are mock interviewed by the panels of the centre consisting alumni, faculty, and former faculty of the college.

The centre now has its own building furnished with all necessary requirements: ICT enabled seminar hall and two reading rooms with capacity of more than 200 students each. The coordinator of the centre visits every class at the inception of the academic year and discusses various issues regarding competitive examinations. The centre offers a foundation course for one year. After admission, regular lecture, tests are conducted for students. They are provided facilities such as library with more than 2500 books and different newspapers, internet access, reprography facilities, etc. lectures of officers and successful students are also organized. The successful candidates are felicitated. The candidates who qualify for interviews of various examinations, mock interviews are conducted, wherein experts, officers guide them on various interview techniques. Tests are conducted taking into consideration the patterns of question papers of State and government services. To meet the needs of expert guidance, experts are invited to guide the students. For girl students, hostel facility is offered. The reading rooms are kept open from 6 am to 12 pm. Besides, the examinations which require physical fitness test, the centre also extends coaching for preparation of physical fitness tests.

**ICSSR Funded National Seminar on “Role of Science and Technology Schemes of the Government of India in the Socio-Economic Welfare of the Indian Society during AzadiKa Amrit Mahotsav” 29-30 December, 2023**

**A Note on the Contribution of the National Seminar to the Existing Body of the Research**

Science and technology is widely recognized as an **important tool for fostering and strengthening the economic and social development of the country**. Technology plays a fundamental role in wealth creation, improvement of the quality of life and real economic growth and transformation in any society. The science and technology application for welfare of the people is a strategy which is beneficial to the people. Recently, India has celebrated AzadiKa Amrit Mahotsav and has tried to promote Indian Knowledge and Practices as well as the contribution of science and technology for human welfare. Taking into consideration of the support of the science and technology for human welfare, and the uniqueness and importance of the subject, the college has organized “Two Day National Seminar on Role of Science and Technology Schemes of the Government of India in the Socio-Economic Welfare of the Indian Society during AzadiKa Amrit Mahotsav”. This seminar has covered different themes associated with it. There were various sessions on different issues associated with role of science and technology for welfare of Indian Society. The Resource Persons invited were experts in their concerned areas who have enlightened the stakeholders.

Prof. (Dr.) V. B. Jugale has discussed about existing situation or Indian agriculture scenario. He appealed the audience especially young student researchers to work for innovative ideas for agriculture development in India. He appealed the audience to go for research in various areas such as inputs and output of agriculture sector, the Nutritional farming, GMO Technology, and Application of AI in agriculture, Circular Economy, Industrial Revolution, Recycle Economy, Mutation in Agriculture, Synthetic Biology, and Genetic Engineering, use of Robots and application of various Apps in agriculture such as for mapping, watering, and use of fertilizers. Dr. Nagashri Ekbote has appealed students to undertake research work for Ayurveda and Public Health”. She also advised research studies regarding different schemes such as Ayush, Ayushman Bharat, ASU Drugs, NCISM and their impact on the Indian society. Principal Prof. (Dr.) B. S. Kamble, advised students to undertake research studies regarding start-Up Programmes, own business set up and an entrepreneurship. He suggested for undertaking research about impact of the various financial support schemes of the Government. Prof. (Dr.) K. D. Sonawane after expressing thoughts on the Real Time Large Scale Technology, NHM, NRHM, NUVVM Missions undertaken by the Government of India, spoke about synthesis of new drugs, anti TB drugs, streptomycin, and research related to these materials. It was very useful to the students. Prof. (Dr.) D. S. Chavan appealed to conduct research studies regarding digital transaction, UPI (Unified Payment Interphase), Net Banking, etc. Prof. (Dr.) M. S. Deshmukh expressed areas of the research studies in the economic policy of the Government of India and its impact. Prof. (Dr.) S. R. Mane took review of various schemes of Government of India during last 75 years and advised the students to perform research in various socio-economic areas. Thus this national Seminar has considerably contributed to the Existing Body of the Research.
