BRIEF SUMMARY

Name of the Activity

National Science Day Celebration

Date of the Activity

Saturday, 28th February 2026

Organizing Department

Department of B.C.A.

Karmaveer Bhaurao Patil College, Urun-Islampur

National Science Day was celebrated with great enthusiasm in our department on 28th February 2026. This day commemorates the discovery of the Raman Effect by Sir C. V. Raman and promotes scientific thinking among students.

The program was organized by the B.C.A. Department in the Computer Science Department. It began with a welcome speech by the coordinator, followed by the principal's address encouraging curiosity, innovation, and a scientific attitude.

Activities like poster presentations and projects were conducted on topics such as renewable energy, environmental protection, artificial intelligence, and space technology. Students actively participated and showcased their creativity, which was appreciated by the judges.

The event concluded with a prize distribution ceremony. Overall, the program was informative, inspiring, and successfully promoted awareness of science and technology.

Session Highlights:

- Celebration of National Science Day on 28th February 2026
- Awareness about the importance of science and the Raman Effect
- Motivational speech by the principal encouraging innovation and curiosity
- Poster presentations and project displays on various scientific topics

- Active student participation and creative ideas
- Appreciation by judges for innovative efforts
- Prize distribution ceremony for winners
- Overall informative and inspiring session promoting scientific thinking

Interaction and Participation:

- Students actively engaged in all activities with enthusiasm
- Interactive discussions during poster presentations and project displays
- Participants confidently explained their ideas and concepts
- Healthy competition encouraged teamwork and creativity
- Audience showed interest by asking questions and sharing views
- Overall high level of participation made the session lively and impactful

OBJECTIVES

- To commemorate National Science Day and the discovery of the Raman Effect
- To promote scientific thinking and awareness among students
- To encourage curiosity, innovation, and a scientific attitude
- To provide a platform for students to showcase their knowledge and creativity
- To enhance understanding of science and technology in everyday life
- To motivate students to explore new ideas and research in various scientific fields

OUTCOMES

- Increased awareness about the importance of science and technology
- Enhanced scientific thinking and curiosity among students
- Improved presentation and communication skills
- Encouraged creativity and innovation through projects and posters
- Boosted confidence among participants
- Fostered interest in research and emerging scientific fields
- Overall positive and inspiring learning experience for students

CONCLUSION

The celebration of National Science Day was a great success and proved to be both informative and inspiring. It helped students understand the importance of science in everyday life while encouraging curiosity, creativity, and innovation. The activities and participation made the event engaging and meaningful, leaving a positive impact on all attendees and motivating them to explore the world of science further.
