**“Green Corner: Exploring the Frontiers of Botany”**

**Academic Year 2025-2026**

Department of Botany is organizing Green Corner Activities, which will be run by students and faculty members for creating awareness among Students and staff of our college. This activity will be initiated since 1<sup>st</sup> July 2025.

These activities will be undertaken in collaboration with Department of Microbiology and Biotechnology.

All the staff and students of our college are instructed to visit this activity regularly. Brochure is enclosed herewith. It will include Wall papers, Posters, Models, Papers, and Demonstration etc. Material from any staff member and students related to objectives is most welcomed.

Frequency of Activity: Weekly

Venue: Department of Botany

16/06/2025

Head, Botany Department

# "Green Corner: Exploring the Frontiers of Botany, Biotechnology and Microbiology"

Tagline: "Cultivating Knowledge, Nurturing Innovation"

## **Green corner concept**

The Green Corner concept is an initiative to create a dedicated space or platform for promoting awareness, knowledge sharing, and community engagement on topics related to:

- Botany
- Biotechnology
- Microbiology
- Environmental science
- Sustainability
- Conservation
- All allied subjects

**Objective:** To create a dynamic platform for students, faculty, and staff to share knowledge, ideas, and research in the fields of Botany, Biotechnology, and Microbiology, and to promote interdisciplinary collaboration and innovation.

The Green Corner aims to:

- Educate and raise awareness about the importance of plants, microorganisms, and the environment
- Showcase research, innovations, and success stories in these fields
- Provide a platform for students, faculty, and staff to share ideas, collaborate, and network
- Inspire and motivate individuals to take action towards sustainability and conservation

## **Content:**

- Research highlights and breakthroughs in Botany, Biotechnology, and Microbiology
- Student research projects and achievements
- Faculty interviews and expert insights
- News and updates from the scientific community
- Info graphics and illustrations showcasing scientific concepts and processes
- Photos and stories from departmental events and activities
