Report On

Workshop

“Java Programming”

Date & Time: 23rd December, 2023, 11.00 AM

Organized By

Department of Computer Science

A two day workshop on “ **Java Programming**” was organized by the Department of Compute Science, K. B. P. College, Islampur. on 23rd Decemeber 2024 to 24th ,December 2024 at Hall No. F0-7.

Objectives of the program:

1. To improve Technical Skills Development
2. To Understanding of Full Stack Architecture
3. To Provide Version Control Expertis
4. To Empower Best Practices in Development

During the workshop on frist day Mr. Manjunathan sir conduct their session. In their session he taught to student on on some of the basic introduction to Java programming and its origin. The concept of OOPS, on which the JAVA was built on was dealt in depth. Concepts such as Polymorphism, Inheritance, Encapsulation and Abstractions were explained clearly. Elaborating on the polymorphism, things such as Objects, Methods, Constructors were introduced. And based on that, method overloading, overriding were shown clearly with examples. Along with that Inheritance with its types were taught too. Some of the advanced concepts were also taught which included Exception handling, Usage of packages in Java. I/O Streams introduction were also given to the students along with some sample programs.

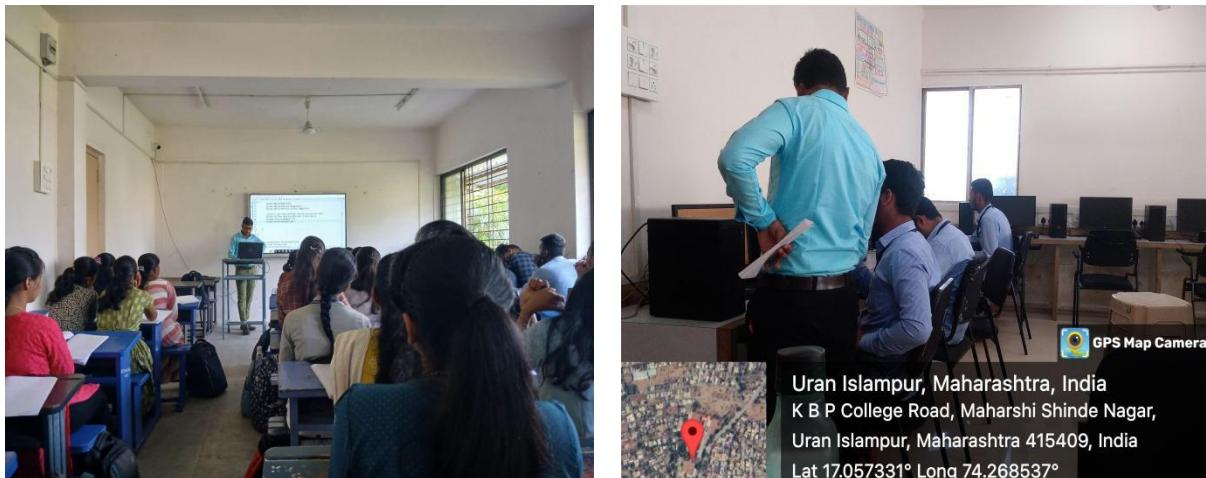

On second day of Workshop Mr .Vinit sir taught student about database connectivity, concept of servlet and JSP. He also conduct practical work from student in their session.

At last Prof. Mr. P. M. More Sir, expressed the vote of thanks.
