Alumni Activity

A Guest Lecture on

“Career opportunities in higher education”

Resource person- Supriya L. Gaikwad

-:Report:-

Karmaveer Bhaurao Patil College, Urun-Islampur every year organize alumini lecture for the students who are pursuing bachelor degree in various field. This innovative activity help students for there career growth. Under this activity our department organized alumini guest lecture on “ Career opportunities in higher education”. The resource person for this session was Supriya L. Gaikwad. Currently she is preparing for competitive exams. She discussed about various career opportunities after graduation in microbiology.

Professor in Microbiology, role & responsibilities of Assistant professors in microbiology is to teach courses at undergraduate and graduate levels, lead research projects, publish academic papers, and contribute to curriculum development. They also mentor students and supervise graduate research.

1. Research Scientist, role & responsibilities are conducting specialized research in microbiology, including topics like infectious diseases, microbial ecology, or biotechnology. Research scientists work independently or as part of a research team, often publishing their findings in peer-reviewed journals.

2. Laboratory Manager/Director, role & responsibilities laboratory managers oversee day-to-day operations in microbiology labs, manage budgets, ensure safety protocols, train staff, and support research initiatives.

3. GATE (Graduate Aptitude Test in Engineering), Purpose of this exam is primarily for admission to M.Tech/M.S. programs at top engineering institutions in India, such as IITs and

NITs. While it's more popular among engineering students, there are also specific branches that accept candidates from basic sciences, including microbiology.

CSIR-UGC NET (National Eligibility Test), Purpose to qualify for lectureship and research fellowships in Indian universities and colleges.

SET (State Level Eligibility Test) Purpose similar to CSIR-UGC NET but conducted by individual states for recruitment as Assistant Professors in state universities and colleges.

B.Sc. in Microbiology offers diverse career paths in higher education and research. While some roles may require additional qualifications or experience, the foundational knowledge gained during the undergraduate program serves as a stepping stone to various specialized careers in academia, research, and industry.
